Video Conference

Face-to-face Collaboration anytime, anywhere with SMART

Aytel Systems’ Hosted Desktop Video Conferencing Service, SMART, delivers a cost-effective, high-quality, single-click video and collaboration experience that gives users the ability to communicate with colleagues, clients and partners from any location.

SMART is presence based; it provides real-time status of colleagues online

- Contact colleagues with ‘One-Click’ calling
- Instantly view colleagues availability from your contacts toolbar
- Leave a text message if your colleague is unavailable
- Talk right from your desktop
- Create multi-party conference calls on-the-fly (hold, merge, resume, etc.)

SMART features

With SMART you can also:

- Share documents, the “Document Share Button” – launches a document/data sharing tool
- Integration with IBM Sametime and MS SmartTags
- Integrated H.323 which means it is fully interoperable with other standard conferencing solutions such as Polycom etc
- Unique dynamic bandwidth management ensures superior quality video at low bandwidth and a high ‘Quality of Experience’ at all times

Multi-Party Calling

SMART helps organisations to reduce their carbon footprint by significantly reducing the need to travel

with SMART Desktop Video Conferencing on the fly

Ayte Systems Ltd, CBTC2 Capital Business Park, Wentloog Avenue, Cardiff, CF3 2PX, Tel: 0844 567 2006
